

Certify Your Risk Management Expertise!

UNIBA Partners, in collaboration with FERMA, offers you the possibility to obtain RIMAP, the only European professional certification for risk and insurance managers.

Who should obtain certification?

- _ **Young professionals:** to boost their professional development, become involved in their risk management community and benefit from the continued education program
- _ **Client-facing staff:** to demonstrate their risk management credentials and highlight the value of their professional advice
- _ **Senior staff:** to demonstrate their commitment to risk management and highlight their professional credentials

How will you benefit?

- _ Prestigious, independent validation of your professional competence and commitment
- _ Demonstrate your risk management expertise to your clients and to your employer
- _ Join the broader risk management community
- _ Position yourself to provide risk-based advice and long-term value versus selling the cheapest policy
- _ Stay abreast of best practices – RIMAP is not just an exam, it's also continued education
- _ Study with others and make new friends – you will learn so much!

How to get certified?

- _ Confirm your eligibility
- _ Apply at www.ferma.eu/rimap-certification/¹
- _ Enrol and obtain access to the learning material and practice questions
- _ Plan your study and choose your exam date (one each month)
- _ Join a study group or work alone
- _ Take the online exam (it's in English)² – and get certified

Who is eligible?

RIMAP is open to risk professionals, including brokers and insurers who meet the following criteria:

- _ Master's degree or equivalent plus 3 years in a full-time risk-focused position **or**
- _ All others: 5 years in a full-time risk-focused position³

RIMAP is open to UNIBA Partners from across the world; your country of origin is **not** an eligibility factor.

¹The application fee is €450

² For European candidates: the minimum study period can correspond to 20 hours of training under IDD rules

³ For a definition of a risk-focused position see <https://www.ferma.eu/rimap-certification/whom/>
